**Text prompt:** "A black and white animated scene unfolds with a steamboat on a serene river or canal, surrounded by a dock-like structure and rocky shores. The boat emits dark smoke from two tall smokestacks as it moves, leaving a trail behind. As the steamboat accelerates, the smoke grows denser. It eventually disappears from view, and a character emerges from a nearby house-like structure, standing on a small pier, observing the surroundings in a simplistic, classic animation style."
